Введение

Практикум «Improve your Reading and Writing Skills!» предназначен для аудиторной и самостоятельной работы студентов 1 курса лингвистических специальностей при изучении дисциплины «Практический курс первого иностранного языка». Учебное пособие содержит современный аутентичный материал по 5 темам, соответствующим разделам рабочей программы дисциплины.

Пособие включает дополнительный лексический и текстовый материал, комплекс упражнений для совершенствования умений устной и письменной речи, задания для контроля знаний, умений и навыков в области овладения речевой деятельностью на английском языке.

Каждая тема практикума содержит аутентичный текст статьи и задания, направленные на развитие умений чтения, устной и письменной речи. Задания могут выполняться как на занятиях под контролем преподавателя, так и самостоятельно в ходе внеаудиторной работы. Тексты статей отобраны с учетом межпредметных связей, критериев современности, аутентичности, методической целесообразности. Каждая статья сопровождается гиперссылкой, позволяющей прослушать аудиоматериал к статье и выполнить дополнительные задания. Выбор заданий и упражнений, методика работы с материалом, представленным в пособии, определяется целями занятия, уровнем владения английским языком и интересами обучающихся.

1 Unit 1 Family

Exercise 1. Read the article. Make up the list of unknown words. Pay attention to the words *in italics*. Discuss the following questions:

- a) Why are the following people heroes: fire fighters, police officers, teachers, soldiers, politicians, athletes?
- b) Could you be one?

A father in Australia is being *hailed* as a hero after saving his baby son from the *jaws* of a wild dingo. The baby was *dragged* from his *campervan* on Australia's Fraser Island on Friday. His father awoke and heard his son's screams outside. He rushed to his son's aid and dragged his son from the dingo's jaws. He also fought off other animals in the pack. The 14-month-old baby boy was *rushed* to hospital and underwent surgery for a *fractured* skull and deep cuts to his neck and head. Doctors report he is now in a stable condition and is expected to make a full recovery. The father said: "Our son is doing well. We ask the media to please respect our family's privacy while we focus on our son's recovery."

The recent attack on the infant boy is the third such incident this year. Fraser Island residents are worried that the attacks could threaten the island's *heritage* status. Long-term resident, Hannah Robinson, said many visitors did not realize they should not camp in unfenced areas with children under the age of 12. She said there was not enough education about how to be aware of the threat of the animals on the island. She added: "We have been calling for a visitors' center for years. This is one of the most-visited national parks and there is nobody around to give people information about what they can and cannot do. People who do the wrong thing are either naive or stupid."

Exercise 1. Read the article. Make up the list of unknown words. Pay attention to the words *in italics*. Discuss the following question:

What is your dream come true for the following things: love, health, your country, the world, food, social media?

It sounds like a dream come true for anyone looking to get on the *property ladder* - a home for one euro (about \$1.14). A *picturesque* town on the island of Sicily, Italy is selling houses for just €1. The *bargain* price is to attract people to move to the hilltop town of Sambuca because of a *rapid* decline in its population. Like many *rural* towns in Italy, the number of Sambuca's residents is *dwindling* because many young people are moving to cities. The Sambuca mayor believes the houses will be easy to sell because his town is so attractive. It overlooks the Mediterranean Sea, is close to *gorgeous* beaches and has retained its *heritage* with its *cobbled* streets and Arabesque *architecture*.

Like all bargains, there is a small catch to the one-euro houses - the buyer must promise to spend \$17,000 on renovating the property within three years of purchasing it. Sambuca's deputy mayor said the houses are owned by the town, so there is little of the red tape normally associated with buying a property. He said: "We're not intermediaries who *liaise* between old and new owners. You want that house, you'll get it no time." He promised potential buyers would love the town. He said: "This fertile patch of land is dubbed the "Earthly Paradise". We're located inside a natural reserve, packed with history. Gorgeous beaches, woods and mountains surround us. It's silent and peaceful - an *idyllic* retreat for a detox stay."

5 Unit 5 Daily Routine

Exercise 1. Read the article. Make up the list of unknown words. Pay attention to the words *in italics*. Discuss the following questions:

- a) What do you think of the following ways of losing weight: exercise, being vegetarian, fasting, big breakfasts, no sugary food, sleep well?
- b) What are the good and bad things about them?

Researchers have revealed what might be a highly popular new way to lose weight - eat a big breakfast. It could become the biggest *diet* fad ever for those wishing to shed a few kilos. Scientists in Germany conducted a study on how a *hearty* breakfast affected the body's *metabolism* in a *laboratory* experiment. Sixteen men ate *a low-calorie* breakfast and high-calorie dinner one day, and reversed this with a high-calorie breakfast and low-calorie dinner the next. Eating a larger breakfast and a smaller dinner *boosted* a process called diet-induced thermogenesis (DIT). This is the *generation* of heat in the body that burns up calories. This happened even when the total calories consumed throughout the day remained the same.

Eating a big breakfast led to 2.5 times higher rates of DIT. Researcher Dr Juliane Richter spoke about the findings of her *investigation*. She said: "Our results show a meal eaten for breakfast, regardless of the amount of calories it contains, creates twice as high DIT as the same meal consumed for dinner. This finding is *significant* for all people as it underlines the value of eating enough at breakfast." She added: "Eating more at breakfast instead of dinner could prevent *obesity* and high blood sugar. We recommend that patients with obesity as well as healthy people eat a significant breakfast rather than a large dinner to *reduce* body weight

and prevent metabolic diseases" [<https://breakingnewsenglish.com/2002/200223-big-breakfast.html>].

As with many countries, France is experiencing *a shortage* of hand *sanitiser*. To help *combat* this, the *luxury* goods maker Louis Vuitton (LVMH) will start making sanitiser to help fight the COVID-19 virus. The company will *repurpose* its perfume production lines to start making *antiviral* products. A spokesperson said the company wants to help *tackle* the shortage of sanitiser across France. He announced: "LVMH will use the production lines of its perfume and cosmetic brands to produce large quantities of alcoholic gels. These gels will be delivered free of charge to health authorities." He added: "LVMH will continue to honour this commitment for as long as necessary, in connection with the French health authorities."

LVMH is a luxury goods *conglomerate* that owns well-known brands such as champagne maker Moët & Chandon, watchmaker Tag Heuer and jeweller Bulgari. Its factories manufacture perfume and makeup for brands like Christian Dior and Givenchy. In a warlike effort, they will change production to help France's health system. More commercial companies could start helping out in the fight against the coronavirus. The UK government has asked the car and *jet-engine* maker Rolls Royce to start making *ventilators*. These are urgently required to help people hospitalised with the virus breathe. The UK's health service has a huge

shortage of ventilators and is readying itself for more people to contract the virus.

Exercise 1. Read the article. Make up the list of unknown words. Pay attention to the words *in italics*. Discuss the following questions:

- a) How important are the following food groups: vegetables, pasta, grains, nuts, dairy, meat?
- b) What do they do for us?
- c) How nutritious are they?

Pasta has been *reclassified* as a *vegetable* in U.S. schools. An *overhaul* of national *dietary* regulations has resulted in pasta now counting towards the vegetable requirements in school lunches across the USA. The new school guidelines were released by the U.S. Department of Agriculture last week. The rules *stipulate* that: "Pasta made of vegetable *flour* may credit as a vegetable, even if the pasta is not served with another recognizable vegetable." Pasta can only be *regarded* as a vegetable serving if it is made with *potato, soy or other starchy, vegetable-based flour*. Shocked critics of the new rules joked that *bread* could be regarded as a vegetable as that is also made from flour.

Other changes outlined include the halving of *fruit* given to children for breakfast and the provision of a greater selection of *burgers, fries, pizza* and other *high-calorie food* that is full of *saturated fat* and *salt*. The Agriculture Secretary defended the guidelines. He said the new rules would reduce food waste. He said the new policy was necessary because, "a more common-sense flexibility is needed to provide students with *nutritious* and *appetizing* meals". The guidelines reverse the Hunger-Free Kids Act of 2010, which was championed by Michelle Obama. A health expert said: "This makes absolutely no sense. Politics and industry pressure

Exercise 1. Read the article. Make up the list of unknown words. Pay attention to the words *in italics*. Discuss the following questions:

What are your favourite chains: coffee shop, fast food, fashion, hotel, technology, ice cream? Why?

A health group has warned people to be careful about how much sugar is in their drinks when they go to coffee shops. Many cafes in the UK are adding extra sugar and *syrup* to their *festive* drinks in the run-up to Christmas. The health group is called Action on Sugar (AOS). It carried out research on how sweet hot drinks were in coffee chains around the country. It found that some lattes and hot chocolates *contained* as much as 23 spoons of sugar. It analysed over 200 different drinks. The *researchers* said they found "shockingly" high levels of sugar in many of the drinks. An AOS spokesperson said people with *obesity*, *diabetes* and other health conditions needed to check what they were drinking.

Action On Sugar analysed drinks from nine different coffee shop chains. It found the unhealthiest drink was the Starbucks "Venti" caramel hot chocolate. It contained 93.7g of sugar and 758 calories. AOS says it has as much sugar as three cans of Coca-Cola. A spokeswoman for Starbucks said: "We are committed to reducing sugar in all our beverages and since 2015 we've delivered a nine per cent *reduction* in the sugar content." Katharine Jenner, a director at AOS, said: "The hospitality industry has a key role to play in being transparent. It must help to reduce the amount of sugar we *consume*. 10 Unit 10 Shopping

Exercise 1. Read the article. Make up the list of unknown words. Pay attention to the words *in italics*. Discuss the following questions:

What are the advantages of humans and technology doing the following jobs: cashier, manager, cleaner, security, shelf filler?

The online *retail giant* Amazon will start selling its *cashier-less* technology to any store or retail *outlet* that wants it. The *software* is called "Just Walk Out". The software means stores do not need any *cashiers*. Shoppers simply *scan* a smartphone app when they arrive at a store and then put their shopping in their bag and just walk out of the store. The software automatically *calculates* the cost of the customer's shopping and *charges* the cost of their shopping to the customer's Amazon account. The new software will allow customers to have their credit card or other payment card *deducted* instead. Amazon has been using the software for the past two years in its own Go Grocery stores.

The Just Walk Out software will reduce the amount of employees a store needs. Instead, the store will need to put hundreds of small cameras on the ceiling. The cameras *link* to software that detects what customers have put into their bag. The software then bills the customer and *issues* a *receipt* online. An industry expert expects Amazon to make a lot of money from selling the software to other stores. Many stores want to remove one of the biggest things customers complain about - slow *checkouts*. Amazon said the software will allow store staff, "to focus on more valuable activities". However, a retail expert worries that, "there will be fewer jobs as automation comes in".
